DETAILED ACTION

Remarks

1. The objection to claim 2 and the rejections to claims 1-23 are withdrawn in response to applicants' amendment and arguments filed 5/24/2004. Claims 1-23 are pending in the application.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas G. Eschweiler (Reg. No. 36,981) on July 27, 2004.

3. The application has been amended as follows:

In claim 17, at line 7, replace "selecting one or more bake parameters" with -- selecting a bake **parameter** --; and at line 10, replace "one or more bake parameters" with -- bake **parameter** --. (Emphasis added)

In re claim 20, at line 2, delete "one or more" after "selecting."

Allowable Subject Matter

4. Claims 1-23 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Applicant's arguments against Traynor to US 6,008,659 is persuasive. Traynor teaches a test method for characterizing same state and opposite state retention performance over time in

ferroelectric capacitors. Traynor, however, at least fails to teach or suggest selecting a time parameter and a temperature parameter according to a data retention lifetime and selecting a particular initial state according to the data retention lifetime (in re claim 1); selecting a bake parameter according to the desired data retention lifetime and the tested data retention lifetime and baking the device according to the bake parameter (in re claim 17) and adjusting the process time and the process temperature according to the obtained tested data retention lifetime and a suitable data retention lifetime (in re claim 20).

In addition, the combination of Traynor, Kammerdiner et al. (US 5,969,935) and Mitra et al. (US 5,661,730) do not read the claims. Therefore, the instant invention is neither anticipated nor rendered obvious over the prior art of record.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hsien-Ming Lee whose telephone number is 571-272-1863. The examiner can normally be reached on Tuesday-Thursday (8:00 ~ 6:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri can be reached on 571-272-1855. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
